Fenabel presents itself as a specialist in the production of chairs, fascinating pieces of furniture endowed with great complexity. We aim to create a unique and contemporary style, combining all the craftsmanship, the attention to the detail and cutting-edge production technology with constant innovation. Those qualities are the brand's image of everything that is built at Fenabel, aimed to a B2B environment, where all the details are important.

The wood element along with its characteristics and harmonious designs is the prime raw material of different collections with smooth and versatile shapes, upholstered with fabrics specially selected to create a symbiosis between furnishing and fashion, filled with sensations and cultural references. In this way, Fenabel seeks to transform the simple gesture of seating, in a movement of pure elegance, either for a private project or for contract environments.

The Palmar Outdoor Collection designed by Estudio Santiago Sevillano is inspired by the shapes that the boat sails assume when the wind blows. This was the image projected in the artist's mind when he visited the natural park in the city of Valencia. Hence the slight curvature that the back of the chair assumes.

A Coleção de exterior Palmar desenhada pelo Estúdio Santiago Sevillano é inspirada na formas que as velas dos barcos assumem quando o vento sopra. Esta foi a imagem projetada na mente do artista quando visitava o parque natural da cidade de Valência. Daí a ligeira curvatura que a costa da cadeira assume.

designers

CarlesiTonelli

The CarlesiTonelli studio was set up in 2004 by Davide Carlesi and Gian Luca Tonelli, who put together their experiences and different backgrounds in industrial design. It is based on a dynamic approach, characterised by rigour of drawing, essential style, technical research and great sense of humor. The studio focuses on industrial design, paying great attention to industrial processes, new trends, new materials and technologies in order to develop innovative and sustainable projects and products.

Paco Camus

Over the years, Paco Camús has developed his creativity through very diverse fields such as: graphic design, interior design or product design. But without a doubt his facet as a furniture designer is the most prolific and the most well-known. His designs can be found in some of the most exclusive stores around the world. His professional career says that he is more designer than artist, but sometimes his designs are obstinate in deciding that he is more artist than designer. London or Mexico DF are some of the cities where he has given conferences about his work. It is worth highlighting his collaboration, as a jury, at the Instituto Europeo de Diseño. His restless nature prevented him from settling down in a sector or in a style, always seeking experimentation and innovation. Sculpture, literature and collage are just some of the disciplines he is currently exploring.

Aitor García de Vicuña

Aitor García de Vicuña (Vitoria, 1970) had to hear at some time in his life "you won't succeed". Obviously this wasn't the case as he has been able to make a name for himself when it comes to office design furniture in Spain. Industrial designer, outgoing, perfectionist, aware of the environment's importance and the notion that the future must be worked hard, García de Vicuña founded his own design studio (AGV Estudio) in 2003, after having worked in several technical offices and engineering studios. For Fenabel he designed various collections, with a contemporary design style, inspired by raw materials such as wood, one of Aitor's biggest passions.

Santiago Sevillano

"We live in a world of objects without being aware of it, perhaps because we interact with them at every moment of our lives.»

A multidisciplinary studio founded by Santiago Sevillano in 2003 in Valencia. A team made of highly experienced and qualified professionals from diverse creative backgrounds that offer solutions that increase the value and competitiveness of our customers through a global concept of services that covers the entire design process, which goes from the conception of the product, through art direction, graphic and space design, to strategic consulting and brand repositioning. Their inconformist nature is based on the attention to detail, teamwork and efficiency, which are the way to obtain great products and to offer customized services, capable of generating significant experiences for people and solid business opportunities for companies. They take the complex and make it simple.

Muka Design Lab

Muka Design Lab is an award winning industrial design studio from the Basque Country in Northern Spain that specializes in Slow design to create furniture, consumer goods and home appliances with character.

They believe in “slow design” and work with talented local artisans and craftsmen to design everyday objects people love. From sustainable furniture to industrial design concepts, every great design begins with a story that gives life to each piece.

They take everyday products and give them personality from concept to reality.

Studio Segers

Wim Segers, Bob Segers and Tom Fonteyn design meaningful concepts with innovative techniques and sustainable materials. Respect for craftsmanship and tradition are basic values. The challenge is to design products which are pure and honest and transcend fleeting trends. Attention to detail and refined simplicity are essential. Every problem that may occur is analysed and tackled thoroughly in a passionate search for powerful, innovative concepts.

André Costa

André Costa is a young talented Portuguese designer, who believes that – “To stop working means to stop dreaming” – and that is why he manages to develop many interesting designs. One proof of that is the remarkable Cosmo Lounge Chair, inspired in the Porto wine vats.

João Viveiros

Winner of Fenabel Design Contest 2021, is a student of ESAD design school with talent and enthusiasm that will make him create beautiful designs.

Pablo Regaño

Pablo Regaño (Valencia, 1994) is a design engineer who founded the studio in 2021. The culture of his hometown has influenced his designs, which are full of expressiveness and color.

The studio is specialized in furniture design, and his vision lives in the connection created between the product and the user, therefore, developing a pleasant bond between the item and the person.

He is passionate about Mediterranean culture. Climate, nature and light are the pillars on which this culture is based. These values are an inspiration to create products that have also added worth to their function, giving a soul to each design.

REPUBLIC OF II BY IV

REPUBLIC OF II BY IV is a forward-thinking, international product and furniture design studio with a focus on thoughtful exploration of materials, forms, and systems. The team designs timeless products that last. Every project aims to transform any space into a dynamic and memorable environment. They always start with research about contemporary culture, manufacturing capabilities, and the latest sustainability tactics to deliver carefully-crafted collections that enhance life.

The studio is life-centric, process-driven, and result-oriented. Their design process relies on conceptual thinking, rapid prototyping, and multiple iterations to refine the initial idea. But more importantly, they believe in partnering with like-minded manufacturers, understanding their production process, and leveraging their strengths to turn conceptual designs into distinct pieces that are both innovative and cherished. Today, their industrial design team is proud to have over 73 products in production. Rooted in the unparalleled knowledge and experience of their founders — Dan Menchions and Keith Rushbrook—since 2012, REPUBLIC OF II BY IV has received 49 international awards, cementing it as a global leader in the design of sought-after luxury products.

Sara Elizagarate

Made for comfort, the Couture lounge chair is an invitation to sit down and relax. Its embracing back and soft seating rest on an wooden structure, resulting in an elegant and succulent armchair.

Inspired by the bold and sculptural shapes of dresses by Cristóbal Balenciaga, this fully upholstered lounge chair provides the user with the possibility of playing with the different fabrics, emphasizing its soft shapes. Projected in two sizes, the collection works perfectly for resting in a hotel lobby or enjoying a peaceful moment to read at home.

A comfortable lounge chair of generous volumes which looks great in both contract and domestic atmospheres.

Sahar Famouri

Some stories begin when others end, In 2015 Sahar Famouri created a non-conformist seating collection, unique in its category that inspires a sitting solution beyond the standards! With this first edition which won the “Red Dot” design award in 2017 for high design quality, expressing innovation in Form and function in an exemplary way, she decided in 2019 to create the brand “FID Paris ” with an innovative vision and identity: FID is a contemporary furniture editor who suggests a range of customisable and scalable furniture and accessories according to the needs of individual.
